SUMMARY

Driven IT professional with a passion for AI and Machine Learning, aiming to leverage expertise in Python, TensorFlow, and data analysis to contribute to innovative AI projects.

SKILLS

machine learning

ML Libraries

TensorFlow, Keras, Scikit-Learn, Pandas

Data Visualization

Tableau, Matplotlib, Seaborn

Soft Skills

Analytical Thinking, Problem-Solving, Critical Reasoning

CERTIFICATIONS

Machine Learning - Stanford University (Coursera)

Deep Learning Specialization - Andrew Ng (Coursera)

INTERNSHIPS

0112022 - 0612022	AI Intern
City	XYZ AI Labs
• Worked on a team to develop an AI model to predict customer churn. • Used Python and Scikit-Learn to create machine learning pipelines. • Conducted data cleaning and preprocessing on large datasets.	

ACADEMIC PROJECTS

Image Classification Using Deep Learning

Developed a convolutional neural network (CNN) using TensorFlow for image classification. Achieved 92% accuracy on the test dataset after multiple model iterations. Presented the project at the University's annual tech fest.

EDUCATION

0712018 - 0712022

B.Sc - Computer Science

CGPA●. 8.9

ABC University
